COVID-19 INFORMATION

COVID-19 ALBERTA HEALTH DAILY CHECKLIST (FOR CHILDREN UNDER 18)

Overview

This checklist applies for all children, as well as all students who attend kindergarten through Grade 12, including high school students over 18. Children should be screened every day by completing this checklist before going to school, childcare or other activities. Children may need a parent or guardian to assist them to complete this screening tool.

If your child has traveled outside Canada in the last 14 days, follow the <u>Government of Canada Travel</u>, <u>Testing</u>, <u>Quarantine and Borders</u> instructions, including any requirements for exempt travelers related to attending high-risk environments.

Screening Questions for Children under 18:

Does the child have any new onset (or worsening) of the following core symptoms:			
Fever	YES	NO	
Temperature of 38 degrees Celsius or higher			
Cough	YES	NO	
Continuous, more than usual, not related to other known causes or conditions s	such as		
Shortness of breath	YES	NO	
Continuous, unable to breathe deeply, not related to other known causes or consuch as asthma	nditions		
Loss of sense of smell or taste	YES	NO	
Not related to other known causes or conditions like allergies or neurological di	sorders		

If the child answered "YES" to any symptom in question 1:

- The child is required to isolate for 10 days from onset of symptoms as per <u>CMOH Order 39-2021</u> OR receive a negative COVID-19 test and feel better before returning to activities
- Use the AHS Online Assessment Tool or call Health Link 811 to arrange for testing and to receive additional information on isolation.

If the child answered "NO" to all of the symptoms in question 1, proceed to question 2.

2.	Does the child have any new onset (or worsening) of the following other symptoms:			
	Chills	YES	NO	
	Without fever, not related to being outside in cold weather			
	Sore throat/painful swallowing	YES	NO	
	Not related to other known causes/conditions, such as seasonal allergies or reflux		!	
	Runny nose/congestion	YES	NO	
	Not related to other known causes/conditions, such as seasonal allergies or being outside in cold weather			
	Feeling unwell/fatigued	YES	NO	
	Lack of energy, poor feeding in infants, not related to other known causes or conditions, such as depression, insomnia, thyroid dysfunction or sudden injury			
	Nausea, vomiting and/or diarrhea	YES	NO	
	Not related to other known causes/conditions, such as anxiety, medication or irritable bowel syndrome			
	Unexplained loss of appetite	YES	NO	
	Not related to other known causes/conditions, such as anxiety or medication			
	Muscle/joint aches	YES	NO	
	Not related to other known causes/conditions, such as arthritis or injury			
	Headache	YES	NO	
	Not related to other known causes/conditions, such as tension-type headaches or chronic	_		
	migraines		<u></u>	
	Conjunctivitis (commonly known as pink eye)	YES	NO	

If the child answered "YES" to ONE symptom in question 2:

- Keep your child home and monitor for 24 hours.
- If their symptom is **improving** after 24 hours, they can return to school and activities when they feel well enough to go. Testing is not necessary.
- If the symptom does not improve or worsens after 24 hours (or if additional symptoms emerge), use the AHS Online Assessment Tool or call Health Link 811 to check if testing is recommended.

If the child answered "YES" to TWO OR MORE symptoms in question 2:

- Keep your child home.
- Use the AHS Online Assessment Tool or call Health Link 811 to determine if testing is recommended.
- Your child can return to school and activities once their symptoms go away as long as it has been at least 24 hours since their symptoms started.

If the child answered "NO" to all questions:

Your child may attend school, childcare and/or other activities.

Please note: If your child is experiencing any symptoms from the lists above, do not bring them to visit a continuing care or acute care facility for 10 days from when symptoms started or until symptoms resolve (whichever is longer), unless they receive a negative COVID-19 test result and feel better.
